Support the Freedom of Choice Act (FOCA)

With Bush's appointees casting the decisive votes, the Supreme Court turned back the clock on women's health. Every American who values freedom and privacy should be troubled by the Court's decision to uphold the Federal Abortion Ban, an abortion ban with no protection for a woman's health.

But there is something you can do to fight back. Help get a federal law on the books that would protect women's rights even as President Bush and his judicial appointees continue to dismantle *Roe v. Wade*. Since *Roe*, a woman's right to choose has been systematically eroded by anti-choice politicians in Congress and many states. In fact, more than 500 anti-choice measures have been enacted in the states since 1995, essentially rolling back this fundamental right for many women. We need the protection of FOCA now more than ever before.

Don't let this latest attack on women's personal, private medical decisions go unanswered. Urge your members of Congress to cosponsor the Freedom of Choice Act.
